The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## A LESSON IN GEOGRAPHY.

A number of changes in the boundary lines of New Mexico counties were made by the recent legislature and therefore a list of counties with their present area is of interest. Bernalillo County is the smallest although still larger than the state of Rhode Island. It covers 1,240 square miles. Santa Fe County is the only other county with less than 2,000 square miles, it having lost recently Espanola and Moriarty precincts and now lays claim only to 1,980 square miles, which, however, is greater than the extent of the average principality or dukedom in Europe and upon which a million people can find room before the county will be as thickly populated as is the kingdom of Belgium. Taos County is third with 2,353 square miles; Mora fourth, with 2,542 square miles. The other counties range as follows: Quay 2,805 square miles; Luna 2,946; Sierra 3,081; Roosevelt 3,110; Torrance 3,330; Dona Ana 3,818; Sandoval 3,833; Colfax 3,897; Guadalupe 3,952; Lincoln 4,659; San Miguel 4,893; McKinley 5,377; San Juan 5,598; Valencia 5,712; Rio Arriba 5,932; Union 6,037; Eddy 6,506; Otero 6,870; Grant 7,493; Chaves 9,599; and Socorro 15,605 square miles. The states of Maryland and Massachusetts could be crowded into the last named county and seven counties the size of Santa Fe or twelve the size of Bernalillo can be carved out of it.

Over 4,200,000 acres of the area of New Mexico, or one out of every eighteen acres, is included in forest reserves and if the Jemes forest reserve is created, as is likely, the proportion will be even more. The Gila River Forest Reserve now covers over 3,000,000 acres, a princely domain of mountains, forests, river valleys, mines and grazing land. The Lincoln reserve has an area of 500,000 acres. The Pecos River Reserve has 431,040 acres to its credit but is soon to be increased in area by the addition of several townships. Considerable of the area of the Territory is given up to Indian reserves and Indian grants. The Navaho reservation includes 2,345,492 acres in the northwestern part of the Territory. The southern Ute reservation has a patch of 107,314 acres in northern San Juan County. The Hecarilla Apache reservation in Rio Arriba County covers 404,788 acres and the Mescalero Apache reservation in Otero and Lincoln Counties 419,280 acres. The Zuni Indian reservation covers 273,280 acres, including 35,000 acres granted to the Pueblo of Zuni. The Indian pueblos all have land grants. The San Felipe Pueblo covers 13,817 acres; the Nambe 7,680 acres; Laguna 125,225 acres; Isleta 110,000 acres; Acoma 95,000 acres; Sandia 24,187 acres; Santa Ana 17,000 acres; Pojoaque 13,520 acres; while Santa Clara, San Juan, Pecos, Santo Domingo, Cochiti, Taos and other pueblos, have large reservations or over 900,000 acres altogether.

There are five military reservations in the Territory. Fort Union, in Mora County, covers 66,880 acres; Fort Wingate in McKinley County, 83,200 acres; Fort Stanton, 28,221 acres; Fort Bayard 8,840 acres; the Fort Sumner Post Cemetery, 160 acres.

## SOME MEN MUST KICK.

Why any man who is the fortunate possessor of an artesian well should object to the annual tax of \$5 laid upon each flowing well in the Territory for the support and maintenance of the office of artesian well inspector and for the preservation of the flow of artesian wells, is not clear. The tax is too small and too insignificant to waste time in discussing it. The inspection and preservation of artesian wells on the other hand are of the utmost importance to the section fortunate enough to possess such. It seems that "the better a thing" some men have, the more will they kick. This is the case now in Chaves County. Some men would kick if they were to be hanged and others if they were given an income of \$5,000 per month and turtle soup and terrapin stew three times a day free. The latter class seems to be well represented among those now making "the welkin ring" concerning the artesian well tax in Chaves County.

## THE BEAM IN THE EYE OF THE ALBUQUERQUE CORPORATION JOURNAL.

The Albuquerque Corporation Sheet which cares for nothing and nobody except what benefits the gang it represents, does not like the attitude of the weekly newspapers of the Territory upon the question of statehood. It does not like the way these papers are edited and criticizes them rather severely. The editors of the papers criticized are just as good judges, if not better ones, of the situation and what is demanded, as is the Albuquerque Corporation Sheet, whose legitimate business it is to advocate the granting of a very valuable franchise to the Water Supply Company at the expense of its city and to boom joint statehood in order to help the sales of real estate and corporation franchises held by those controlling it. The average editor of the average weekly newspaper in New Mexico is a rather sensible fellow and knows pretty well what his readers and he himself want without the advice and consent of the Albuquerque Corporation Journal. The following is the silly attack made by the corporation journal upon these editors:

"Statehood is at present the most important issue before the people of this Territory. The subject will be brought up in Congress as soon as that body meets, and will then occupy the attention not only of Congress, but of the country till it is disposed of.

"The most of the territorial weeklies reach this office Saturday night. A close and careful examination of the latest issue of these papers reveals the fact that with the single exception of the Raion Gazette not one of them has a line or word upon this paramount issue! They have ponderous editorials upon the war in Manchuria, the peace conference in Portsmouth, the yellow fever in New Orleans, and various other foreign subjects of which the writers know little and their readers care less, but upon a subject of vital importance to all the people of the Territory they have not a word. Is that merely a coincidence or is there a reason for it? Is it because the Governor and other federal officers are opposed to statehood and the weekly press is afraid to offend them, or is it because the editors think there is so little chance of securing statehood that it isn't worth while to talk about?"

"Whatever may be the reason for it such a condition of affairs is passing strange."

In the issue of the Corporation Journal in which the above appears, there also appear four headed editorials upon the following topics: "A Remarkable Find." This relates to the finding of the Ziegler expedition in the Arctic. "Some He Dropped." This is something about Mr. Bryan; the third editorial talks about something "Not Unreasonable" in which the Corporation Journal fully agrees with some Canadian contemporary, which is important if the Canadian contemporary ever finds it out; editorial No. 4, "The Wife Deserter," gabbles about men who desert wives in the large cities of the country. If therefore seems that the Corporation Journal has no edge on the weekly papers of New Mexico in the matter of publishing heavyweight editorials upon subjects which are not very near and dear to the people of New Mexico and which editorials, intelligent New Mexicans read in the daily papers published in large cities as it is well established that pretty much every man who pays any attention to the news of the day and public affairs, subscribes for a daily in some of the larger cities of the country and quite often for the daily published at his former home. The adage about the beam in his own eye and the splinters in the eyes of others might be headed by the Albuquerque Corporation Sheet with profit. However, the New Mexican only makes this suggestion. This paper has no idea that the Corporation Journal will adopt it although meant in the kindest of spirit and for its sole benefit.

"No doubt the New Mexican editor believes that the Republican administration causes the sun to shine in New Mexico and paints the natural scenery of mountain and valley."—Roswell Daily Record.

The New Mexican's esteemed Roswell contemporary is mistaken. The New Mexican is ready and willing to give the Republican territorial administration credit where it is due, just as it is ready and willing to give Democratic administrations credit where they deserve it. The fact that there are so many more Republican administrations doing good and the right thing, naturally compels the New Mexican to give subjects connected with them, the lion's share of its space. In addition Providence and nature are always kept in mind by the New Mexican, although these latter two need not care.

W. O. Buddecke, the manager of the forthcoming Northern New Mexico Fair at Las Vegas evidently understands his business. He is giving the project wide, well considered and attractive advertising. The fair, although the idea was conceived a short time ago, promises to be a grand success. In addition Mr. Buddecke knows how to make friends for his town and for the Meadow City and therefore for the proposed fair.

The Chicago and Alton Railroad will install a wireless telegraphy system on its lines at an early date. Every engine is to be equipped with the necessary apparatus and it is said that experiments so far made by the road, have been successful. Verily the world moves and the railroads move with it.

## THE PECOS VALLEY FAIR WILL BE A SUCCESS.

The Pecos Valley fair will be held this fall in Roswell and it promises to be a big thing. The president of the association is W. M. Atkinson, a leading citizen, and its secretary is Lucius Dills, who is a well known newspaper man of ability and experience. The people of the counties of Chaves, Eddy and Roosevelt will attend the gathering and they have enough natural resources in the agricultural, horticultural and stock raising lines to make the event a success and highly interesting as well as profitable. On account of the difficulty and cost, in time and money, to reach southeastern New Mexico from the central part of the Territory, not many people from the latter section will attend, but there are enough inhabitants in the three counties to make the fair a very notable and well attended gathering. The pioneers of the Pecos Valley will meet during the fair and this part promises to be an interesting assembly. The Pecos Valley Fair will not interfere in any manner with those to be held in the central parts of the Territory at this time, but the New Mexican hopes that the day will soon break on which the people of that section will be able to reach the central part of the Territory speedily and cheaply. When that happens, this commonwealth will be more united and more prosperous. Therefore it cannot come about too soon.

## A BANK WITH A SOUL.

There are banks with souls and there are banks without souls. The latter class seems to be predominant and it is therefore refreshing to find a bank of the other kind. An instance has just occurred at Carlsbad and concerning it the Argus says:

"The action of the First National Bank of this city, in offering to loan the county two thousand dollars for a period of six months, without interest, to enable the commissioners to promptly make the necessary repairs to the county bridge across the Pecos River, was a most commendable and public spirited action, and the bank is being highly complimented for its promptness and generosity in aiding the county in this present emergency. The loan has been accepted and it will be but a short time now until the bridge will be repaired and in use. The First National Bank is one of the sound financial institutions of the Territory, and to its monetary soundness it adds a keen interest in the success of the community and is ever ready to join in any movement looking to the public good."

## ONLY HUMAN!

"The reference to the Republican administration in the article on the Military Institute, was due to an obsequious of the brain which causes the New Mexican editor to introduce politics into every subject undertaken. On the whole the article was good, and the little idiosyncrasies of the writer can be overlooked in view of his good intentions. Good school management and wise business methods are non-partisan. There are good and bad managers in all parties."—Roswell Daily Record.

The New Mexican does not object to the above. It is only human and in the nature of things, the New Mexican cannot be perfect. Right here it is well to make this admission. On the other hand, it is doing the best it knows how in its humble capacity for the upbuilding and progress of New Mexico as a whole and of every section of the Territory in particular. To err is to be human and the editor of this paper freely admits that that is all he can possibly be, "human."

The second annual encampment of the National Guard of Arizona has just closed. It was held at Prescott and was a success. The National Guard of this Territory should also go into camp this year. If not, why not?

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give a child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

Opportunities of this great piano house brought to the door of most distant customers.

For thirty years we have been sending Pianos into all sections of this and surrounding states, until the name of this firm has become a household word in almost every locality.

Our carefully organized mail-order plans have done much to extend trade in this manner. The mail-order customer deals direct with the house and is given the same advantages in the way of prices and terms as the person who lives right here in Denver.

The testimony of hundreds, even thousands, might be given who have purchased Pianos of us in this way, and who are prepared to say that the satisfaction was as complete as if they had bought at our warehouses in person.

It matters not where you reside, we will ship a Piano on approval, and if the instrument should prove unsatisfactory within a reasonable period, it may be returned and another will be sent in its place.

Write for our list of bargains in new and slightly used Pianos, including instruments that were priced originally from \$325 to \$550, which can now be bought on easy terms to suit you, at such prices as

**\$195. \$215. \$225. \$280. \$300. \$345.**

These prices represent clean savings on each Piano of \$75 to \$100, and the economical out-of-town buyer should not fail to send a postal for it at once. Write today—now—and you'll receive list by return mail.
